RSVP volunteers from the Java Program.

2022 GRANT AWARDS

Nevada Rural Counties RSVP Program, Inc. *No Senior Left Behind* \$10,800

RSVP assists seniors and adults with disabilities maintain their independence and avoid costly long-term institutional care by connecting critical services and volunteers with seniors who need extra support to stay healthy and safe in their homes.

Communities in Schools of Nevada *Tele-Health Counseling and Integrated Student Support* \$5,000

CIS of Nevada partners with the University of Nevada, Las Vegas (UNLV) to provide mental health tele-counseling, one-on-one and small group support, basic need services, and social-emotional learning in the schools we serve throughout Elko County. This program fills a gap in mental health services available to students. Through a case management process, CIS of Nevada identifies students needing mental health services and refers them to the program. The program offers free counseling for students delivered during the school day to eliminate cost and transportation barriers for students aged 12 and up.

Northeastern Nevada SAFE *Northeastern Nevada SAFE Project* \$5,000

Special Advocates for the Elderly works to reduce the substantial and overwhelming amount of elder abuse that occurs within guardianship cases. This abuse is not only limited to financial fraud and exploitation but also physical and emotional abuse. The SAFE program helps to ensure that each elderly person in their guardianship proceeding has a qualified advocate who understands their specific needs regarding their welfare and estate.

Communities in Schools of Nevada *Level Up 4 Health* \$2,500

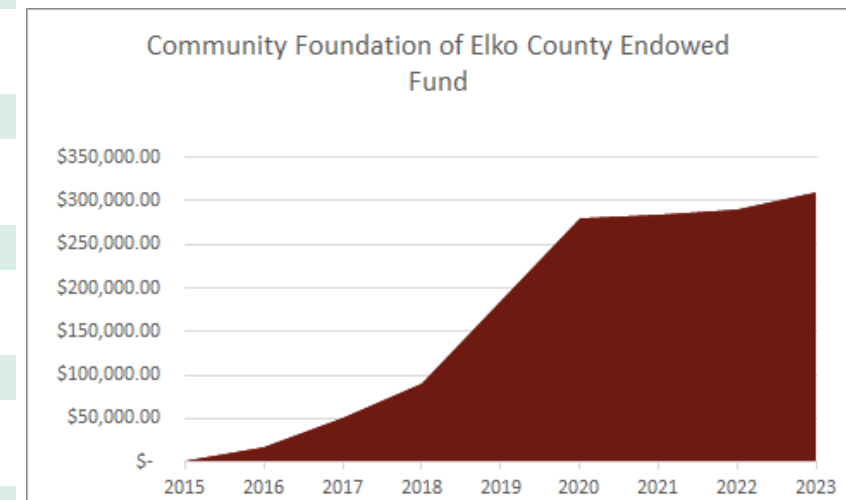

This is a community initiative highlighting the importance of health and wellness in children and teens through increased access to care and increased health and wellness self-management through community-based events to spotlight the links between learning and wellness.

Wells Family Resource Center *Elko County Regional NV Pyramid Model Program* \$1,700

The Nevada Pyramid Model Program is a statewide initiative designed to create a sustainable system that fosters young children’s social and emotional development. The Pyramid Model promotes evidence-based practices that support positive social and emotional skills for young children, such as recognizing emotions in self and others, learning rules and expectations, self-regulation, and positive social interactions with peers.

Social-Emotional Parent Training at the Wells Family Resource Center

OVERVIEW OF 2022-2023

The Community Foundation of Elko County (CFEC) has come a long way since December 2015. We remain committed to funding a foundation today for the needs of tomorrow.

Our vision is to build an unrestricted endowment to provide long-term financial support for the needs of Elko County today and for generations to come. The CFEC strives to bring the community together to identify needs and opportunities for the benefit of all – some of which may not even exist at this time.

In the coming year, the Fund Advisory Committee will be focused on leveling up for the next phase of growth for the CFEC. Striving to be the “go-to” organization for donors who want to invest in Elko’s future, the FAC is focused on adding members and launching a comprehensive marketing campaign in the coming year as the first steps in this effort.
